BAKLAVA

EUROPE'S LARGEST BAKLAVA MANUFACTURER

Europe's largest Baklava manufacturer with 25 million pieces of Baklava per year

When it comes to Baklava, we have something for everyone. By packing so many formats, there is always a pack for your needs whether promotional, seasonal or all year round. Although we are the largest in the EU, we take great care and pride in every detail and with every piece. In addition to Baklava we also produce our other Filo based products, more recently our Phyllo Crisps.

From the heart of the Mediterranean

We create hand-crafted pieces of Baklava, like no other. Our crispy, sweet pastry products are delicately hand-made with the fine filo pastry leaves, layered with an assortment of different nuts, steeped in butter and then gently coated with a light syrup. Our relentless pursuit in the development of our Baklava, has enabled us to become experts in this category.

Finest ingredients & global standards

There is no compromise when it comes to making a superior product. Our willingness to 'better ourselves' and to strive to achieve greater standards is clearly reflected in the Awards and Certifications we have obtained. Our BRC GRADE A+, is the highest one can achieve within the food industry at a global level. But we go beyond this. In addition, we are also IFS approved with Highest Grade rate.

Our commitment to our clients requests and markets also have led us onto navigating the path to achieve full certification from authorised Halal and Kosher certified bodies.
