

NEW BAKERY

Europe's largest Baklava manufacturer

with 25 million pieces of Baklava per year

When it comes to Baklava, we have something for everyone. By packing so many formats, there is always a pack for your needs whether promotional, seasonal or all year round.

Although we are the largest in the EU, we take great care and pride in every detail and with every piece. In addition to Baklava we also produce our other Filo based products, more recently our Filo Snaps.

Finest ingredients & global standards

There is no compromise when it comes to making a superior product. Our willingness to 'better ourselves' and to strive to achieve greater standards is clearly reflected in the Awards and Certifications we have obtained. Our BRC GRADE AA +, is the highest one can achieve within the food industry at a global level. But we go beyond this.

In addition, we are also IFS approved with Highest Grade rate. Our commitment to our clients requests and markets also have led us onto navigating the path to achieve full certification from authorised Halal and Kosher certified bodies.

Global presence

From the UK to the USA and other continents, our baklava can be found in many prominent retailers. Retailers recognise and appreciate the consistent quality that we create and deliver.

As all of our selections are also available as Private label, we have positioned ourselves as the leader in baklava from Snack sizes to Club store formats.

Europe's Largest Baklava Manufacturer

Selection Range: CLASSIC
